# REFUGALS

The 1970's and the 1980's represent a period of awe-inspiring knitwear.

Today Gallia Knit Project collections are

100% made in Italy and redesigned in a contemporary key which is translated into fine elegance, which combines retro style with innovation.

GALLIA

We've chosen to work with oversized volumes, drop shoulders on box and hammered sleeves, stripes both horizontal and vertical. The combination of yarns cleverly create 3D

effects, polo necks pretty in style or high necks that remind the fishermen of their northern lands.

A romantic taste, with a contemporary fitting.

We care about feeling good.

That's why our clothes are evocative: simply by touching them gives you a

sense of elegance and coolness.

Knitted jackets with boxy volumes, cardigans on multicolor argyles, warmed by fully washed yarns.

It is a real *revolution* where color is interpreted in all its forms; wisely combined with the various technical processes typically

used in creating knitwear masterpieces.

Free from any stereotype dictated by the laws of *Understatement*.

# PROJECT

The Gallia Knit Project therefore wishes to pay homage to this wonderful era and does so, by dedicating each item of the collection to one of its

most significant protagonists, prominent elements in the field of music, entertainment, sport, and politics. A real *Amarcord*.

## TRUSTED THE ARTISAN CARE

Every garment resembles a tailor-made item, not a mass produced one. Some models are still woven by patient hands,

the custodians of ancient skills.

*Gallia Knit Project can be found in some of the best stores globally.*
